**Clear Plastic Plant Sleeves** - Great for preparing your young violets or other plants for a sale event. The sleeves allow your customers to handle and inspect your plants without damaging them. They also protect your plants during transport. The sleeves measure 8" tall, and are open at the top and the bottom. The bottom opening is approximately 2" wide; the top opening is approximately 5 1/2" wide. You can use them to sleeve plants growing in pots as small as 1" in diameter, and as large as 2 1/2" in diameter. (Plants growing in pots larger than 2 1/2" in diameter need the larger plant sleeve offered below.)

The small plant sleeves can be made to fit any pot round or square that is larger than 1" diameter by trimming of the excess at the bottom of the sleeve. They cut easily with scissors. For example, to use a sleeve on a plant growing in a 2" diameter pot cut off 2" from the bottom of the sleeve. **The small sleeves are not intended for pots larger than 2 1/2" in diameter.** The photo above shows plants in sleeves than have been trimmed to fit a 2" pot and a 2 1/4" pot.

**Small Plant Sleeves** Item #260 per packet of 50, \$6.79, 3 oz.;  
Item #260A per 250 sleeves, \$30.39, 12 oz.

**Plant Sleeve w/ handle** - These are heavier gauge plastic than the sleeves above. Made of clear, glossy plastic they have a solid cup-like base. They will accommodate up to a 4" pot either standard or azalea type. One edge of the top has a molded handle. They show off the plants you are selling and protect the plants when they are subjected to transport and to being handled by customers. 8 1/2" tall at the highest point.

**Plant Sleeve w/ handle** Item #250, each \$.49, 1/2 oz.
